

## YOUR RELATIONSHIPS PORTRAIT

*We will consult well ahead of time until we are all clear on what you wish. In the meantime, below you will find some general guidelines.*

### GENERAL:

- A relationship can be a couple, a father and daughter, best friends, a boy and his dog, or any individuals who wish to create an image of themselves together.

### OUTFITS:

- For suggestions on selecting outfits that will look the best in photos, [please see](#) the separate preparation portrait guides for women, men, and children on our site if you do not have them already.
- Colors: No need for you all to dress in the same colors unless you have a special reason, such as team uniforms. Choose outfits that look flattering and make you feel good. However, for a pleasing look of the final image, it is good for all of you to choose colors that go well with each other.
- Style: Consider your style and the look that expresses the core qualities of who you are. Dress-down casual, urban, rustic, stylish, edgy or even tux and gowns: it's up to you. For an elegant sophisticated look, black and off-whites with shades of gray look great. Go with browns, yellows, and reds if you want a warmer look. Big patterns and logos on t-shirts are tricky and best avoided unless what everyone is wearing go perfectly together. If in doubt, however, just bring them along, but with some backups as well.
- Style Level: it is usually best that everybody in the image is on the same level of dressed-up or dressed-down. If you go against this principle, know why. If you are not sure, decide what you can beforehand and, if necessary, we can sort it out on site. Bring several outfits, at least three. More is better.
- We will be able to do several different versions and styles. You can change outfits between sessions, mix and match, and have fun.

### SKIN AND HAIR:

- For suggestions on makeup and accessories for women, men, and children, [please see](#) the separate preparation portrait guides for women and men on our site if you do not have them already.

...

We will spend some time warming up, so please allow enough time. If possible, do not schedule anything immediately after your shoot, so you can stay relaxed. If children will be part of the shoot, and they generally have a better time of day, for instance mornings, let us know and we will take that into account when scheduling.

### LOCATION:

We can come to you or a location of your choice, or you can come to our studio. Our studio also has a backyard with trees so we can do inside and outside.

If you are coming to our studio, we are twenty minutes from downtown, north of Seattle, and just off I-5 in Shoreline. We will send you our address and directions, and you will have your own off-street parking spot right next to the entrance.
